Foreword

MERCY
SCHOOL OF NURSING
LIBRARY

We, the student body of Mercy School of Nursing, Charlotte, North Carolina, do present the 1965 MERCILITE.

What is progress? It is change, and like many other institutions, Mercy has undergone many changes.

The curriculum has changed tremendously, even in the past three years. Even though all of us are studying nursing; each year more and more subject material is introduced.

Our faculty has increased to the largest ever known at Mercy. In order to be progressive, they have been doing postgraduate study so that they may teach the Mercy students the latest in nursing.

Now we have clinical instructors in all areas of the hospital. They are there to guide us in becoming the best- a Mercy nurse.

Even our uniforms have changed. Gone forever are the white single-piece uniforms. Mercy students now wear "stripes" and "aprons."

There is something new about our caps, also. Freshmen receive a cap upon entering training. Junior students wear a burgundy band and Seniors, royal blue. The capping ceremony is a thing of the past and in its stead, is the banding ceremony.

We shall attempt to depict these changes in the MERCILITE through our theme, "Progress Through Change."

A Dedication To:

A dedicated woman-one who strives to help our lives take on meaning and fulfillment as if she were molding her own soul-

A friend-one who through her kindness, understanding, and friendship, has given a part of herself to each of us-

An educator-one who has worked our hearts out so subtly that now they are hers forever-

A scholar-a woman who has dedicated her life to seeking the truth-
In accordance with our theme "Progress Through Change", we, the annual staff of the 1965 MERCILITE, do dedicate this annual to our director, Sister Mary Elizabeth, through whose perseverance and guidance Mercy has truly experienced "Progress Through Change."

Gratefully Dedicate

Sister Mary Elizabeth, R.S.M.

*"He who gains intelligence is his
own best friend; he who keeps
understanding will be successful."*

Proverbs 19:8

In Memoriam

It falls to my hand the privilege of writing of Pat Ciccolella who died of cancer of February 19, 1965. We, in hospital work, face death frequently, but we face it differently when it affects someone close to us. Then too, we must stop and think when there is a special quality involved.

Pat was and is very special. She knew her medical condition and faced surgery and therapies with an indomitable spirit and will. Academically she was an honor roll student, and everyone she worked with recalls her superior nursing ability in the hospital. A few remember the extraordinary influence she had on certain patients who had cancer; and who obtained their lift and positive attitude from Pat's encouragement.

In her twenty years she lived a lifetime. Selflessness and loyalty walked with her together with pain and hope always encompassed by the circle of the Spirit of God.

Truly of her are the words from Browning's PROSPICE applied

. . . For sudden the worst turns the best to the brave,
The black minutes are end,
And the elements rage, the fiend-voices that rave,
Shall dwindle, shall blend,
Shall change, shall become first a peace out of pain,
Then a light, then thy breast,
O thou soul of my soul! I shall clasp thee again,
And with God be the rest!

Philosophy

The philosophy of the Mercy School of Nursing is founded on the Christian philosophy of life, of education and of social principles.

We believe that Education is the organized development and equipment of all powers of a person, moral, intellectual, physical and social, by and for their individual social uses, directed towards the union of these activities with their Creator as their final end.

We believe that nursing education must be motivated by charity and must include not only the care and rehabilitation of the sick but also the preservation and promotion of health, thereby meeting the comprehensive needs of patients.

The desired results of this educational program is the mature Christian nurse, capable of self-direction and prepared for beginning professional nurse positions in hospitals and similar institutions.

(Excerpts from the 1963-
1965 Bulletin of The
Mercy School of Nursing)

Evening Pray to Our Blessed Mother

Night is falling, dear Mother, the long day is o'er,
And before thy loved image I'm kneeling once more,
To thank thee for keeping me safe through the day,
To ask thee this night to keep evil away.

Last Will and Testament

We, the graduating class of 1965, being of sane mind, do hereby leave our most cherished possessions to the following individuals, hoping they'll get as much service from them as we did.

SECTION A

1. We give Mercy our undying loyalty, and always cherish the fond memories of our school.
2. With our leaving, we know the faculty will breathe a tremendous sigh of relief.
3. To the Juniors we leave our blue bands, knowing they're proud to wear them.
4. To the Freshmen, we leave all the encouragement in the world. Keep at it, girls, it's worth it.

SECTION B

1. I, Pattie Barnett, leave for Fort Lauderdale and "Where My Boy Is."
2. I, Honey Barron, leave my Kidd to anyone who is as crazy about him as I am. How about it, Claudia?
3. I, Jo Black, do leave with John. Sure hope Uncle Sam understands.
4. I, Shirley Blanchard, leave the Mercy girls to join Uncle Sam's boys.
5. I, Carol Bowers, leave my "taxi cab service" to anyone with a car and credit card.

14. I, Elaine McConnell, leave via Piedmont Airlines for Mt. Mercy.
15. I, Joan Moon, leave to walk down one aisle with a diploma and up another aisle with a MRS. degree.
16. I, Barbara Nestlerode, leave my campaigning, trips to Raleigh, fatigue, state of confusion and ambivalence to anyone with the serenity and patience to endure and enjoy it.
17. I, Jerrie Pierce, leave my wonderful bed and my curvature of the spine to anyone who doesn't mind falling out of bed every night or getting seasick.
18. I, Faith Pomeroy, leave my desire to become a nurse to the underclassmen.

Class Prophecy

The following women have headed the Missing Persons list for the last 20 years. Upon much investigation, this is what has been discovered about their activities.

Honey "AC" Barron - residing in Iowa with her husband and 5 daughters, is current Poet Laureate of the U.S., and has recently published her book of poems entitled "Antidotal Notes".

Elaine McConnell - now living in Jacksonville, Fla. In her sparetime enjoys designing clothes for the tall girl.

Pattie Barnett - with her husband and family are experts at art of "beachcombing".

Nancy Ryan - finally happily married to California's only Italian politician.

Carmen Savage - is now tame and taking care of careless men who fall out of trees.

Faith Pomeroy - is head nurse of a pediatric hospital in Japan.

Sara Jean Hildreth - followed her aunt's footsteps, is night supervisor at Mercy Hospital.

Mary Ann Seufert - at last consented to have a T&A. Dr. Link is her surgeon.

Joan Moon - her husband and "moonbeams" have thrived under the TLC she has given them.

Marysia Guryn - is now supervisor of a 16-bed hospital in the mountains.

Emily Dellinger - is thinking about organizing a Procrastinator's Club, but hasn't gotten around to it yet.

Nancy Brown - is assisting her husband, Bill, in devising a new drainage system for the swamps of S.C.

Shirley Blanchard - is a Captain in the Army and is recruiting nursing students for the Army Nurse Corps.

Jo Black - although she didn't quite make it in the Army, is enjoying nursing her troop of 4 boys at home.

Joan Lemieux - 8 kids have turned her prematurely gray, similiar to the platinum we knew her as.

Carol Bowers - with her husband have bought Belknap Hardware Co. of Louisville and renamed it McCall's, Inc.

Phyllis Grill - now spends most of her spring mornings down at Churchill Downs betting on her favorite horse, Stewball.

Barbara Nestlerode - was elected President of the ANA. She still plays cards when not attending conventions.

Fran Hoyle - works for a company which dispenses cathartics containing a secret ingredient imported from Alaska.

Susan Yelton - has a sideline besides her nursing - raising and selling guinea pigs.

Amy Smith - has 3 blond-haired "Army Brats", each born in a different country.

Connie Surface - is now a riding instructor at her own dude ranch in Australia.

Jerrie Pierce - sells rocking beds to nursing students.

Teresa Williams - currently employed as school health nurse at Belmont Abbey College.

Mia! Thies - married to Dr. Isaac Saul, who is head of thoracic surgery at Mt. Sinai Hospital.

How strange! All these women were members of the graduating class of 1965 at Mercy School of Nursing.

Clinical Experience

What better way to learn how to be a nurse than to practice in the hospital?

In the hospital we students apply, under the skillful eye of our instructors, the procedures and principles we learned in the classroom. How we trembled with the thoughts of giving our first IM! Right, Freshmen?

We learn to assume responsibility "over there". It must be admitted, our patients expect the best.

We have undergone many changes in the clinical area. Most important is; now we have instructors to show us how to do everything properly. Our instructors, besides guiding, shaping, molding, prodding, and pulling us into a Mercy nurse, also make all our assignments, and make out monthly time (hurrah! now holidays on or near the calendar date.)

Something new - ward classes to help us apply the textbook picture of a condition to a patient; where we can see the total patient - social, economical, medical, etc. - all aspects of a patient and his illness.

We are no longer in the hospital for service - only for education. We're not saying we don't give service, for we do; but learning comes first. Right, Juniors?

It's with pride that we put on our uniforms and caps. After all, nursing is the noblest profession. Right, Seniors?
